PAGES 1 ENCLOSURES (NO. & TYPE)

REMARKS

25X1

1. At 5 p.m. on 9 September 1952, source saw two van-like trucks in the yard of house No. 2 at Stalin Platz in Finsterwalde. A radar set consisting of a mast three times higher than the truck and fitted with a cross bar, from which seven rods extended, was being installed on the truck. On 22 September, the same two trucks were seen on the premises of the building; however, the radar set had been dismantled. *

25X1

4. Vehicles observed in Finsterwalde during the period from 11 through 27 September.

The drivers of these vehicles wore black-bordered blue epaulets and red-bordered black epaulets. ***

25X1

* [redacted] Comment. Source observed the installation of a RUS-2 type radar set. For location of building, see item 5 on the town plan of Finsterwalde transmitted with [redacted]

25X1

Comment. Unit Abkseevsky is reported for the first time. The administrative building of the former screw factory is occupied by the headquarters of the bomber corps. See item 3 on town plan of Finsterwalde.
